

Job Title: High School Science Teacher

Reports To: Department Principal

Position Type: Full-Time

Position Summary

The High School Science Teacher is responsible for delivering engaging, rigorous instruction in science courses while integrating biblical truth and a Christian worldview. The teacher fosters intellectual curiosity, critical thinking, and stewardship of God's creation, while supporting the spiritual, academic, and personal growth of students in a Christ-centered learning environment.

Key Responsibilities**Instruction & Curriculum**

- Teach assigned high school science courses (e.g., Biology, Chemistry, Physics, Environmental Science, Anatomy & Physiology).
- Develop and implement lesson plans aligned with school curriculum standards and biblical worldview integration.
- Use a variety of instructional strategies, including labs, inquiry-based learning, and technology-enhanced instruction.
- Design and assess formative and summative assessments to measure student learning.
- Maintain accurate records of student progress, grades, and attendance.

Faith Integration & Spiritual Leadership

- Integrate biblical principles and Christian worldview into science instruction appropriately and authentically.
- Model Christ-like character and support the school's mission, statement of faith, and core values of First Assembly Christian School.
- Participate in prayer, chapel services, and other spiritual life activities of the school.
- Encourage students to see science as a means of understanding and honoring God's creation.

Classroom Management & Student Support

- Establish a positive, respectful, and orderly classroom environment.
- Support students' academic, social, and spiritual development.
- Communicate effectively with parents regarding student progress and classroom expectations.
- Collaborate with guidance staff and administration to support student success.

Professional Responsibilities

- Collaborate with colleagues in curriculum planning and professional learning communities.
 - Participate in faculty meetings, professional development, and school events.
 - Uphold school policies, procedures, and accreditation requirements.
 - Serve as a club sponsor, coach, or committee member as assigned.
 - Attend faculty meetings, professional development, and school events.
 - Collaborate with colleagues on curriculum alignment and instructional improvement.
 - Support extracurricular activities, clubs, or school programs assigned.
 - Uphold school policies, procedures, and Statement of faith.
-

Qualifications

Required

- Bachelor's degree in Science (Biology, Chemistry, Physics, or related field).
- Valid teaching certification or eligibility for certification (state or private school requirements).
- Demonstrated commitment to Christian education and agreement with the school's Statement of Faith.
- Ability to integrate faith and learning in science instruction.

Preferred

- Master's degree in Science or Education.
 - Teaching experience at the high school level.
 - Experience with laboratory-based instruction and safety protocols.
 - Familiarity with DE, honors, or college-preparatory science courses.
-

Skills & Competencies

- Strong content knowledge in secondary science.
- Effective classroom management and communication skills.
- Ability to differentiate instruction for diverse learners.
- Commitment to ongoing professional growth.
- Collaborative, flexible, and servant-hearted approach to teaching.
