

Job Title: Secondary Math Teacher (Grades 9–12)

Position Type: Full-Time

Reports To: Department Principal

Position Summary

The Secondary Math Teacher is responsible for providing a Christ-centered educational environment that promotes academic excellence, spiritual growth, and character development. The teacher will instruct students in mathematics (Algebra, Geometry, etc.) while integrating biblical truth and a Christian worldview into daily instruction and interactions.

The ideal candidate demonstrates a strong commitment to Christian education, possesses effective classroom management skills, and fosters a positive learning environment that encourages critical thinking, collaboration, and student success.

Key Responsibilities

Instruction & Curriculum

- Teach high school mathematics courses (e.g., Algebra and Geometry).
- Design and implement lesson plans aligned with state standards and school curriculum goals.
- Integrate biblical worldview and Christian principles into science instruction.
- Differentiate instruction to meet diverse learning needs.
- Incorporate practical application strategies, and real-world applications into instruction.

Assessment & Student Growth

- Develop and administer formative and summative assessments.
- Provide timely, constructive feedback to students and parents.
- Track and report on student progress according to school policies.
- Support students academically, socially, and spiritually.

Classroom Environment

- Maintain a safe, respectful, and Christ-centered classroom environment.
- Establish clear expectations for behavior and academic integrity.
- Foster collaboration, curiosity, and creativity among students.

Professional Responsibilities

- Collaborate with colleagues in curriculum planning and professional learning communities.
- Participate in faculty meetings, professional development, and school events.
- Uphold school policies, procedures, and accreditation requirements.
- Serve as a club sponsor, coach, or committee member as assigned.
- Attend faculty meetings, professional development, and school events.
- Collaborate with colleagues on curriculum alignment and instructional improvement.
- Support extracurricular activities, clubs, or school programs assigned.
- Uphold school policies, procedures, and the statement of faith.

Faith & School Community

- Model Christ-like character and uphold the school's statement of faith.
- Participate in chapel services, prayer and spiritual activities.
- Collaborate with faculty, staff, and administration.
- Communicate effectively with parents and guardians.
- Participate in school events, meetings, and professional development.

Qualifications

Required

- Bachelor's degree in mathematics.
- Teaching certification or eligibility (state or private school requirements).
- A clear, personal Christian faith and active church involvement.
- Commitment to Christian education and integration of faith and learning.

Preferred

- Master's degree in mathematics.
- Experience teaching high school algebra and geometry courses.
- Familiarity with learning management systems and educational technology.

Skills & Competencies

- Strong classroom management and instructional skills.
- Ability to explain complex concepts clearly and engagingly.
- Creativity, flexibility, and enthusiasm for Mathematics.
- Strong communication and collaboration skills.
- Commitment to professional growth and lifelong learning.
